SUMMARY OF SKILLS

Technical Skills

- HTML, CSS, Bootstrap
- JavaScript, Java, Spring Boot, SQL
- State management (Redux, Hooks)
- Advanced styling (SASS, Styled Components)
- Git/GitHub
- Visual Studio Code, IntelliJ IDEA

Transferable Skills

- Quick learner, open to new concepts and technologies – Learned Git and GitHub independently.
- Good leadership, teamwork, and communication skills from four years working as crew supervisor on an orchard.
- Self-learner and motivator with strong analytical skills - Currently learning React.js through side projects. Learned PowerShell through online courses for my job at BC Wildfire Service.

PERSONAL PROJECTS

DevSquare – Collaborative Tech Blogs

OCT 2020 – PRESENT

- I have joined a team of developers based in Ireland to work on a fun side project.
- Devsquare is a web application built using Spring Framework, React.js, and React-Redux. The purpose of this application is to allow developers to create blogs and have the ability to collaborate on those blogs as well.

GameBase – React Course Project

NOV 2020 – DEC 2020

- GameBase is a React Application that I developed while taking an online React Course
- The application fetches and displays game information from the RAWG Video Games Database API
- The app uses React-Redux, useState and useEffect Hooks, and Styled Components

Personal Website

SEP 2019 – DEC 2019

- I developed a personal website to showcase my HTML, CSS, and JavaScript skills
- The website contains information on technical skills, projects, and interests
- Alongside this project, I earned Git and GitHub for version control
- Recently updated the site using CSS grid and improved the styling

EDUCATION

Thompson Rivers University, Kamloops, BC — *Computing Science Diploma*

MAY 2019 - PRESENT, KAMLOOPS

The diploma emphasizes the application of computers to the solution of business-related problems. The academic training combines technical and computer skills with communication skills (written and oral) and business skills. A commitment to professionalism is an essential characteristic of the diploma.

Selkirk College — *Math 12 & English 12 upgrade*

SEP 2017 - APRIL 2018, CASTLEGAR

Institute of Technology Sligo — *Higher Cert. in Science*

SEP 2012 - MAY 2014, Sligo, Ireland

WORK EXPERIENCE

XOMBO, Remote — *Software Developer*

SEP 2020 – PRESENT

- XOMBO helps personal trainers monitor their clients through the apps they already use, like Fitbit, GoogleFit, and Instagram.
- Implemented Google reCAPTCHA on all contact forms to protect the site from Spam Bots.
- Fixed bugs from the existing website and implemented enhancements that significantly improved user experience e.g. made the site look good on all device sizes
- Maintaining an understanding of the latest Web applications and programming practices through research, study, and communication with team members.
- Evaluating code to ensure it meets industry standards, is valid, is properly structured, and is compatible with browsers, devices, or operating systems.

BC Wildfire Service, Castlegar BC — *Technology Services Analyst*

MAY 2020 – SEP 2020

- Supporting the BC Wildfire operations Southeast Centre located in Castlegar, plus all deployments from this site.
- Providing tech support for both off the shelf technologies (e.g. Microsoft) and custom applications.
- Ensure problems are solved or escalated to higher levels.
- Sample support issues: Build and deploy laptops. Troubleshoot printers. Resolve file access issues. Test and install new software applications. Write scripts to ensure efficient and accurate computer builds.

Thompson Rivers University, Kamloops BC — *Teaching Assistant*

JAN 2020 - MAY 2020

- Assisting students with the Web Design lab and answering any questions the students may have.
- Marking assignments and tests every week and giving constructive feedback.

Vernon Seed Orchard Company, Vernon BC — *Orchard Technician*

APRIL - SEP 2015, 2016, 2017, 2018

- Trained, mentored, and supervised a crew of cone pickers
- Following safety procedures and wearing appropriate PPE
- Compiling and maintaining accurate, organized records
- Monitoring the growth and health of orchards. Developing and maintaining orchards
